Have fun and learn to take better photographs!

On our photography course you will experience a new world of artistic photography. The aim is to learn how to compose a shot, make use of light and how to capture that moment. The course covers the fundamentals of photography and develops skills such as:

- How to use a DSLR camera, and become proficient in its functions (in addition to bringing along your phone!)
- Using filters, working in natural and artificial light
- Choosing themes such as wildlife and build up a portfolio
- Recognise the factors in quality photography and become confident to enter competitions.
