

Courses

A Level

A traditional course recognised around the world. The two year course consists of three A Levels chosen from over 25 different subjects.

International Baccalaureate (IB)

An international course, recognised around the world. The two year course covers 3 higher and 3 standard level subjects with a core curriculum. Students pursuing their sport to a high level are able to complete the course over 3 years as part of our W AoS Athlete Friendly Education Centre (AFEC) Accreditation.

BTEC National Diploma

This is a two year course which is equivalent to 2 A Levels. Students need to complete a number of units over the two years. The Extended Diploma is equivalent to 3 A Levels with students completing additional units over the two years.

Extended Project Qualification (EPQ)

EPQ allows students to design their own project. Each student works with a supervisor over the year. Students keep a logbook of decision making, research and planning which is assessed at the end with their product - either a 5,000 word essay or an artefact.

Highly valued by universities when combined with other qualifications.
