

## Quick Guide to using Flipbook

Flipbook is an electronic page turning application that allows for an interactive experience. On clicking the link to the document, you will be met with the following page:

### *A quick guide to the navigation buttons:*

Move forward one page

Move backwards one page

Move to last page of the document

Move to the first page of the document

Print document

Download the document

Search function (to find a specific activity or pupil)

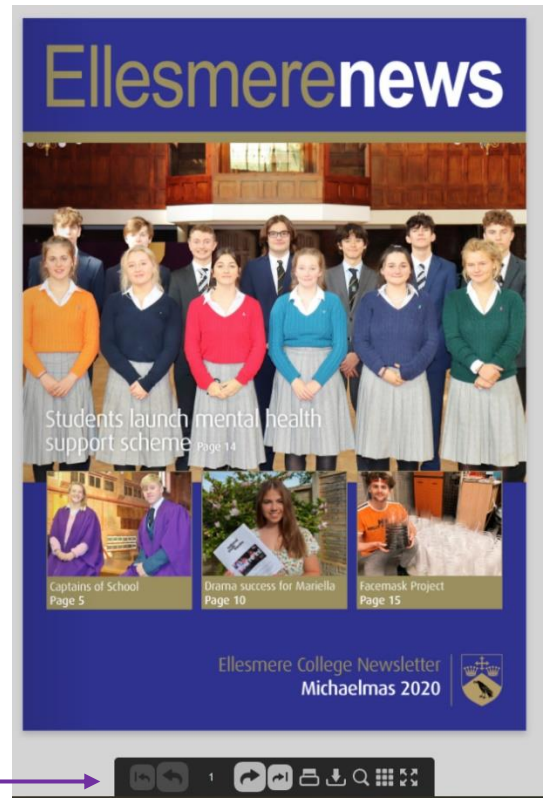

to pull up all the pages on the top of the screen to choose the ones you want

to expand the view to full screen

current pages being viewed

### **Interactive Areas:**

Several of the stories will have direct links to extended information on that story or to other associated information. As you move the cursor over each story, if it changes from a cross to a hand and the following yellow box pops up, then on clicking anywhere in that story, you will be taken to the full story for that piece.
